

"We believe that employees should be provided with a safe, comfortable and inspiring work environment, where growth and personal development are a norm and self-fulfillment is the goal."

Statement of Beliefs

The team that embodies the spirit

The Spirit Group Limited was designed to function as a virtual organisation. It is therefore not surprising to learn that the company's services are delivered by a core workgroup supported by a flexible team of partners and associates electronically connected.

The Principal Consultant, has more than eight years experience in EDMS technology implementation, having had the distinction of selling and project-managing the implementation of the first such system within the Caribbean.

The Spirit Group Limited partners with organisations and consultancies to form an intimate relationship based on shared beliefs and trust. Business collateral and methodologies are shared ensuring that customers are offered a cohesive business solution.

The Spirit Group Limited has identified three levels of partnership:

- Business partners
- Associates
- Global partnerships.

Three levels of support that provide the Spirit Group customer with the depth, reach and diversification so essential to delivering technology services in the 21st century.
